

Task 1

TryHackMe CTF Room Experience & Report

First Ever CTF Experience! 🎉

Room: [Pickle Rick](#)

🌱 *My Journey into CTFs*

This was my **first-ever CTF challenge**, and wow, what a ride!

From figuring out how to install **Kali Linux** (it took a while 😊), setting up **OpenVPN**, to

exploring the actual room—it was all super new and exciting. I made mistakes, got stuck a lot, but I learned so much!

What Was the Challenge?

Help Rick turn back into a human by finding **three secret ingredients** for his pickle-reverse potion.

Steps I Took:

1. **Connected to VPN**
2. **Visited the target IP**
 - **Viewed page source → found a hidden username:**
`R1ckRu13s`
3. **Explored files using `curl`**
4. **Found a command panel and started running Linux commands: `ls`, `cat`, `less`, `sudo`**
5. **Discovered the Ingredients**
 - a.  `Sup3rS3cretPick13Ingred.txt` → mr. meeseek hair
 - b.  `/home/rick/second ingredients` → jerry tear
 - c.  `/root/3rd.txt` (used `sudo`) → fleeb juice

Screenshots I Took:

- VPN connection success

```

Room completed (100%)

This Rick and Morty-themed challenge requires you to exploit a web server and find three ingredients to help Rick make pickle.

Deploy the virtual machine on this task and explore the web application: 10.10.55.154

Answer the questions below

What is the first ingredient that Rick needs?

mr. meeseek hair

What is the second ingredient in Rick's potion?

1 jerry tear

What is the last and final ingredient?

fleeb juice

Congratulations on completing Pickle Rick!!! 🎉

 This room counted toward joining the league 🎮

 *Final Thoughts*

I struggled, I learned, and I *LOVED* it!

This was such a cool introduction to ethical hacking & CTFs.

Thanks to my college seniors and colleagues as well as our group members `CYBERSECURITY(OWASP Kerala & Mulearn)` for helping me out with installation and all .

I feel more confident with Linux, Kali, and command-line tools now.

Can't wait to try more rooms soon! 😊
