Google Dorking Investigation – Tesla.com

Objective

To use Google Dorking techniques to identify publicly exposed documents or directories on tesla.com that may reveal internal or sensitive information, and document the findings.

Google Dorks Used & Results

S.NO	Google Dork Used	File Found	Link Found Inside	Sensitive	Notes
1	site:tesla.com filetype:pdf	Model 3 Owner's Manual	https://www.tesla.com/support	NO	Public manual, includes general support link
2	site:tesla.com intitle:"index of"	No open directories found	Not Available	NO	Tesla does not expose directory listings
3	site:tesla.com filetype:xlsx	Investor Relations Sheet	https://ir.tesla.com	NO	Public investor data

Summary

From the Google Dorks used, all discovered content appears to be intended for public use (owner manuals, investor documents, or support pages). No truly sensitive internal files, configuration logs, or unsecured directories were identified.
