# TRYHACKME NEIGHBOUR TASK

Step-1:

Opened the task "Neighbour" in Tryhackme and checked the constraints.After that,I started the machine.
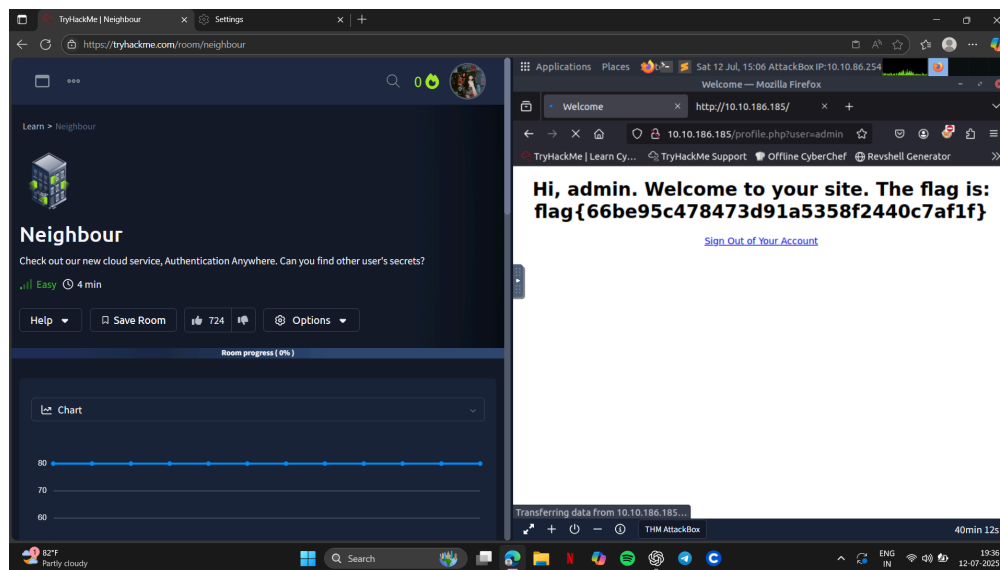

Step-2:

As per the hint ,I clicked 'ctrl+U' and then the source code of the site opened where I found the further details.
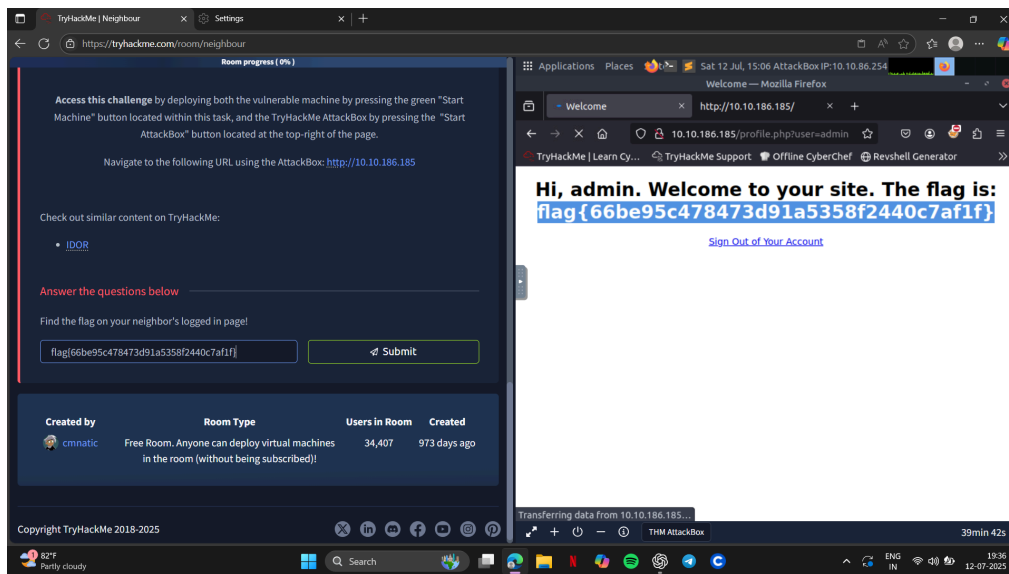

Step-3:

Here we can see the username and password for login(ie:guest).

Step-4:

We entered the site successfully and here we can see in the URL user=guest.After analysing the code we got a hint to change the user to admin(ie: user=admin).

Step-5:

Now we got the flag.So we just need to copy paste it to the task submit option.

Step-6:

Task completed successfully…
